

MAKING INFERENCES

Name: _____

THE VOLCANO

The explorers were hiking to the highest ridge of the volcano to collect data for science. Beads of sweat were dripping down their bodies as they walked higher and higher. Finally, they reached the top and started collecting the samples for their research. Without warning, the ground beneath them started to tremble powerfully. "It's erupting!" they screamed, "RUN!" They sped down the volcano as a dark grey cloud spewed from above. Ash and rock started to rain down on them as they raced towards safety. A thunderous BOOM sounded, and they could feel the heat of the lava behind them. They sprinted down until they reached the helicopter. Up, up, up into the air they went. They just made it out in time!

1. How do you think the explorers felt when they noticed the volcano erupting?

How did you make this inference?

2. Why do you think beads of sweat were dripping down their bodies?

How did you make this inference?

3. How do you think the explorers initially arrived at the volcano?

How did you make this inference?

Google Slides Access

- 1.** Make sure you're logged in under the Google Account that you want to use the file with, which is most likely your school account.
- 2.** Click on the link at the bottom of this page to access the digital file. The webpage will ask you to make a copy. By default, Google Drive will save your copy in your main drive, not a folder.
- 3.** I recommend you make a master copy of the file and put it in a folder so that you have it to access later on. This is helpful if you plan to only assign a few pages at a time to students in Google Classroom.
- 4.** To assign students pages from the Google Slides file, make a copy of your master. (You can do this by right-clicking on the file, or while the file is open, going to FILE > MAKE A COPY.)
- 5.** Rename your new copy. I recommend you rename the copy with a heading relevant. For example: Making Inferences, The Volcano. Delete any pages you don't want to assign.
- 6.** If you're using the file with Google Classroom, make sure you make a copy for each student or give clear instructions to all students to make a copy before editing. Otherwise, all of your students will be editing the same copy.
